

Roka Water Plug

Cement Based Ultra-Fast Setting Mortar for Stopping Water Leaks

Roka Water Plug is a fast-setting cementitious mortar which gives a powerful, fast setting permanent water plug when mixed with water.

Uses & Advantages:

- Easy to use.
- Permanent.
- Ultra-fast setting with rapid strength development.
- Excellent hydraulic resistance.
- No cracking.
- Non-toxic after hardening.

Fields of Application:

Roka Water Stop is used to stop water leaks and seepage through:

- Rocks.
- Concrete.
- Joints between steel and concrete in subways, tunnels, basements, pools, dams.
